

3450-K

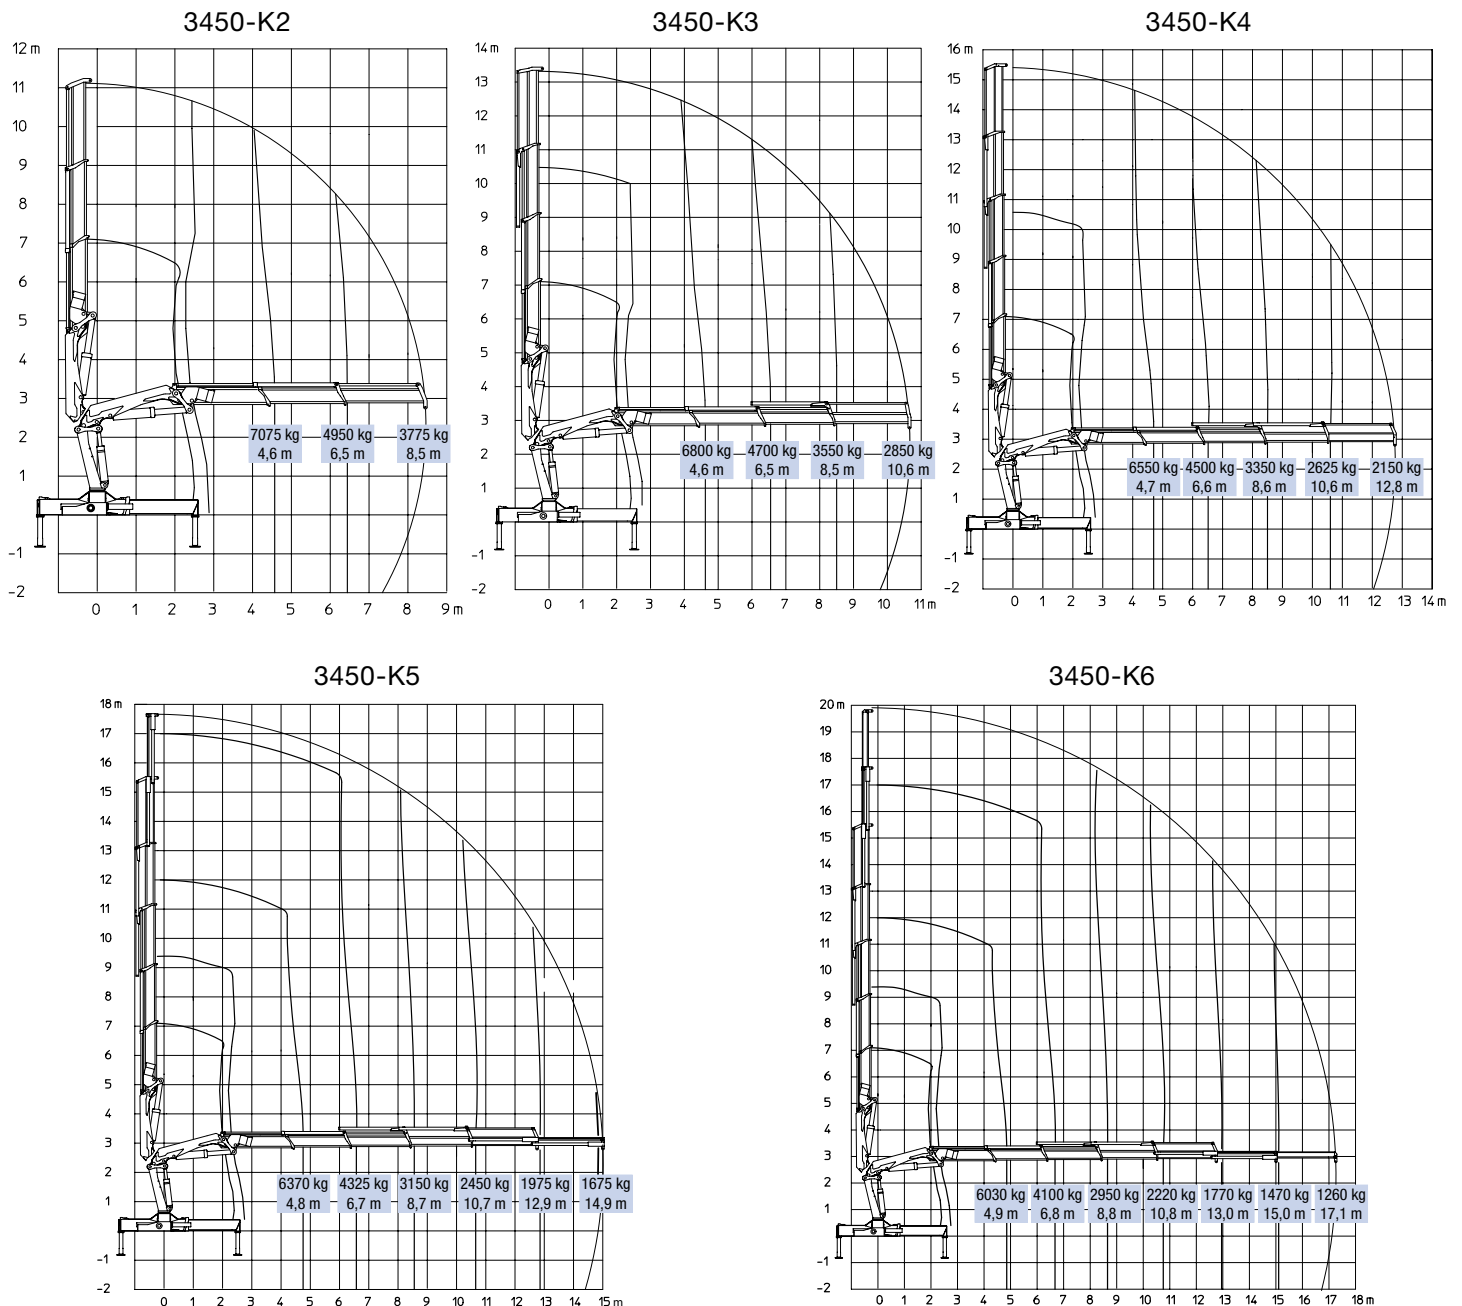

- power to lift.

HMF Knuckle Boom Loader 3450-K

The HMF 3450-K Series – the Loader for Heavy Duty Lifting and demanding Lifting Tasks

- The HMF 3450 Series is a loader in the 34 tm range, which is designed specifically for users who need maximum lifting capacity both at long reach and close to the column.
- The 3450-K is a flexible loader, suitable for both hook applications as well as with hydraulic accessories application such as grabs and rotators.
- With a high lifting height and a dual link arm system, the 3450 Series is tailored to handling tall and bulky items.
- The loader is equipped with the RCL safety system as standard, and can be enhanced with additional safety systems such as; the EVS stability safety system, an integrated front stabilizer leg and an analogue temperature sensor.
- The loader series is available with a number of optional extras including; radio remote control, top seat, winch and Fly-Jib.

- power to lift.
